INDEX.

A

Abdomen, on the removal of needles from the, 580
Abdominal collapse, or shock from abdominal disease, on, 105, 177, 336
Abercrombie, Dr. A., Thesis on Tubercular Leprosy, or the Elephantiasis Græcorum (review), 116
Aberdeen University, 582; pass-list of, 172; regulations of, 304
Ablett, Mr. E., scarlatina in Bloomsbury, 605
Abortion, 497; charge of attempting to procure, 364, 388; retention and growth of the decidua for five months after the death of the fœtus, in a case of, 570
Absence of symptoms in extensive acute disease, 338
Accident, melancholy, 242
Accidental poisoning, 16, 152; how to prevent, 53, 150; another case of, 388
Acclimatization, new food and, 67
Acephalous monster, a, 125
Act to facilitate proceedings before justices under the Acts relating to vaccination, 166
Acton, Mr. W., post-mortem examination of the late Lord Campbell, 193
Ad lectorem, 299
Adair, Mr. P., period of incubation in measles, 390
Adams, Dr. J., homœopathic consultations, 94; the degree of St. Andrews, 366
——, Mr. James, what influence has contraction in stopping uterine hæmorrhage? 23
——, Mr. John, election to the Council of the Royal College of Surgeons, 13; report of a case of rupture of the tendons of both recti femoris, 226
——, Mr. William, on the Reparative Process in Human Tendons after Subcutaneous Division for the Cure of Deformities (review), 210
Admiralty dodging, 486
Adulteration of bread, 166
Adulterations Detected, or Plain Instructions for the Discovery of Frauds in Food and Medicine (review), 501
Advertisements, unprofessional, 464
Aix-la-Chapelle and Borcette, the Mineral Springs of (review), 232
Albumen, preparation of, 465, 490
Albuminous urine, 497, 534
Alcohol question, the, 168
Aldershott, the late assassinations at, 555
Aldis's (Dr.) improved syringe for diphtheria and inflammatory sore-throat, 352
Alkaloid poisons, the detection of, 40
Allen, Mr. J., furred tongue in disease of the bladder, 558
Alps, the, or Sketches of Life and Nature in the Mountains (review), 502
Althaus, Dr. J., on certain points connected with the nature and action of mineral waters, 422
America, the army surgeons in, 219; Central, tetanus in, 240
American war, the, 74
—— doctor, heavy damages against an, 511
Amputation of limbs, illusions peculiar to patients who have undergone, 496
Amygdalotome, a new, 510
Anæmia lymphatica, 8, 9
ANALYTICAL SANITARY COMMISSION.—Records of the Results of Microscopical and Chemical Analysis of the Solids and Fluids Consumed by all Classes of the Public: On the adulteration of Chicory and Coffee, 18; on Tea and its adulterations, 143; on the adulteration of Pepper and Cayenne, 236; Mustard and its adulterations, 408; on the adulterations of Pickles, Bottled Fruits and Vegetables, 533
Anasarca, on, 370; the treatment of, 410, 433
Anderson, Dr. A., Heads of Lectures on the Practice of Medicine, for the Use of Students (review), 116; Ten Lectures introductory to the Study of Fever (review), 187
——, Dr. T. M'C., on the Parasitic Affections of the Skin (review), 449
Andrews, Dr., on puerperal convulsions, 135
Aneurism, of the temporal artery, cure by compression, 135; of the arteria anonyma, 346; of the common iliac artery, 378; of the arch of the aorta, ib.; of the aorta, clinical lecture on, 395; of the heart, on a case of, with remarks on its efficient cause, 445; of the ascending aorta bursting into the pericardium, 449; of the descending thoracic aorta, 475; diffused femoral, deligation of the external iliac, and death from pelvic abscess, 593
Aneurismal dilatation of the left ventricle, 402
Aniline, on the physiological and medicinal properties of sulphate of, and its use in the treatment of chorea, 469
Animal, a unique, 557
—— food, 390
—— Kingdom, Tabular View of the Primary Divisions of the (review), 115
Annus medicus, 1861, the, 618
Anstie, Dr. F. E., on the proofs of live-birth in relation to prosecutions for infanticide, 478
Antrum, fibrous tumour of the, extending through the hard palate into the mouth, 206; cyst of the, punctured on two occasions, 297
Anus, congenital deficiency of the, 420; artificial, in the lumbar region, 583
Apothecaries' Hall, pass-lists of, 51, 74, 100, 124, 149, 172, 196, 218, 242, 263, 310, 340, 388, 412, 435, 488, 510, 536, 545, 582, 622; regulations of, 277; dinner at the, 511; of Ireland, regulations of, 304, 362
Apothecary, what is an? 63
Appointments, medical, 26, 76, 102, 126, 151, 175, 197, 220, 243, 265, 310, 341, 384, 389, 413, 437, 463, 489, 513, 537, 561, 583, 623
Army, examinations for surgeons in the, 25; medical gossip, 39; rank and dress of surgeons in the, 215; health of the, 257, 412; and navy, the, 358; Medical Warrant of 1858, 359, 386
—— Medical Department, 147; regulations of the, 277; grievances in the, 357, 6 0; Statistical Sanitary and Medical Reports for 1859 (review), 525
—— Medical School, Chatham, 118, 164, 336, 355; introductory lecture at, by Dr. Maclean, 325
Arnott, Dr. C. D., aneurism of the arteria anonyma, 346
——, Dr. N., a Survey of Human Progress from the Savage State to the Highest Civilization yet attained (review), 571
Arsenical poisoning, legal, 530
Arsenic-smoking in asthma, 138
Arsenious acid in large doses in fever, a substitute for quinine, remarks on, 112
Arteries, causes and effects of obstructions in the, cases illustrating the, 11; obstructed by fibrinous coagula, 12; and heart, on some discordances in the, 495
Artesian wells and rain-water tanks, 101
Asiatic cholera, alleged, at Nottingham, 242
Association of Medical Officers of Asylums and Hospitals for the Insane, 197
Asthma, reputed cure for, 506
Astragalus, successful removal of necrosis of the, 295; simple complete dislocation of the, forwards and outwards, 548; extensive caries of the, and os calcis, in a child, in which Syme's amputation was performed, ib.; dislocation of the, outwards, 593
Asylums for the insane of the middle classes, 66, 122
Auscultation, drill for 309
Australian dainties, 621
Aveling, Dr. T. H., historical notes on displacement of the unimpregnated uterus as a cause of displacement of the gravid organ, 378
Axilla, enlargement of a mass of lymphatic glands in the, successful removal, 159; hæmorrhage from the, ligature of the axillary artery, followed by death, 594

B

Baker, Dr. T., the treatment of anasarca, 433
——, Dr. W., on some discordances in the arteries and heart, 495
Banks, Mr. A. J. H., health of children in industrial schools, 72, 96
Barlow, Dr. G. H., a Manual of the Practice of Medicine (review), 459
Barnes, Dr. R., on abdominal collapse, or shock from abdominal disease, 105, 177; on a case of peritonitis caused by escape of pus from the Fallopian tube into the abdominal cavity, following on abortion artificially induced, 571
Barton, Dr. G. K., proof of live-birth, 121
Barwell, Mr. R., the New Sydenham's Society's Year-book, 211; on a new operation for the cure of umbilical hernia, 471; on certain grave evils attending tenotomy, and on a new method of curing deformities of the feet, 548, 577, 604
Beale, Mr. J. S., a large infant, 103
Belfast branch of the Royal Medical Benevolent Fund Society of Ireland, 173
——, vaccination and pugilism at, 258
Bennet, Dr. J. H., Mentone and the Riviera as a Winter Climate (review), 296
Bentley, Mr. R., introductory address by, at King's College, 318
Berlepsch, M. H., the Alps, or Sketches of Life and Nature in the Mountains (review), 502
Bernays, Dr. A., introductory address by, at St. Thomas's Hospital, 323
Bigg, Mr. H. H., on a new method of curing deformities of the feet, 578
Bird, Mr. W., report of a case of encephalocele of extraordinary dimensions; death on the fifth day after birth, 110
Births, marriages, and deaths, 27, 52, 76, 102, 126, 154, 175, 197, 220, 243, 265, 311, 341, 365, 389, 413, 438, 463, 489, 513, 537, 561, 583, 623
——, registration of, 150
Bishop, Mr. J., election to the Council of the Royal College of Surgeons, 49
Black, Dr. C., fracture of the femur, tibia, and fibula, with rupture of the posterior tibial artery, 227, 248
—— v. Waller, 123
Bladder, on a new remedy for irritable conditions of the, 345; stone in the, crushed on three occasions, cure within three weeks, 557; stone in the neck of the, resulting in death from scarlatina, ib.; female, cast of the, 570
Blanc medals, the, 560
Bleeding versus brandy, 617
Blind, statistics of the, 125
Blisters, varicose veins and ulcer cured by the use of, 61
Board of Trade, 219, 607
Bodies, preservation of, 242
Bone, the philosophy of, 69
Boner, Mr. C., Forest Creatures (review), 502
Botanical Gardens at Chelsea, the, 93
Bowden, Commander R., death of, 220
Bowel, obstruction of the, importance of examination per anum in, 253; prolapsus of the, 421
Brady, Dr., M.P., testimonial to, 149
Brain, concussion of the, with paralysis of the left arm, 372; compound fracture of the skull, with protrusion of the substance of the, ib.; extensive laceration of the substance of the, with extravasation of blood, 373; symptoms of disease of the, the result of a cyst in the cerebellum, 422
Brazil, medical men in, 571
Brazilian mode of raising funds for asylums, 462
Bread, adulteration of, 166
Breast, male, scirrhous cancer of the, 110, 111; very large cysto-sarcomatous tumour of the, 111; large recurrent fibroid tumour in the left, successful removal of, 408; true hydatid cyst developed in the left, of a woman who, when a child, suffered from tape-worm, 497; medullary cancer of the right, successful excision of, ib.; another case in which was developed a large cyst, 498; scirrhous tumour of the female, of six months' duration, ib.; cystic tumour in the right male, ib.
Bree, Dr. C. R., on the treatment of cholera, 215
Brent, Mr. G. S., injuries caused by lightning, 49
Brereton, Dr., death of, 461
Breslau, the University of, 214
Brighton, the grooms of, 355; on the question of the salubrity of, 381; the drainage of, 481

Bright's disease, Lectures on (review), 231; recovery from, 492
Brinton, Dr. W., on Food and its Digestion; being an Introduction to Dietetics (review), 12; clinical lecture on an aortic aneurism, 395; on the treatment of tubercular hæmoptysis, 516
British Association for the Advancement of Science, 188, 259, 461
——— Guiana, leprosy in, 195
——— Medical Association, 25, 101, 139
——— Museum, M. Du Chaillu and the, 101; the Natural History collection of the, 484
——— Pharmacopœia, the, 25, 453; a hint to the Committee, 610
——— Wild Flowers (review), 232
Brodie, Lady, death of, 74
———, Sir B., and homœopathy, 233, 238
Bronchocele, observations on, and notes relating to the surgical anatomy of the larynx and trachea, 30, 107
Brown, Mr. I. R., five cases of ovariotomy, 476; on vesico-vaginal fistula, 494
Brown-Séquard, Dr., on the diagnosis and treatment of the various forms of paralytic, convulsive, and mental affections, considered as effects of morbid alterations of the blood, or of the brain or other organs, 1, 29, 55, 79, 153, 199, 391, 415, 515, 611
Brussels, the University of, 462
Budd, Dr. W., Mr. Simon and typhoid fever at Bedford, 17; on the propagation of typhoid fever, 533
Bult, Mr. G. N., professional etiquette, 206
Burkitt, Mr. J., testimonial to, 411
Burning the dead, 296

C

Cæn, prize offered by the Medical Society of, 51
Calculus, large encysted urinary, in a primipara, probably inducing premature labour; craniotomy; death by metro-peritonitis, 229
Caldwell, Dr. J., professional fees in justices of the peace courts in Scotland, 342
Cambridge, medical education at, 505; University, regulations of, 271; pass-lists of, 412, 511, 582; election of Professor of Chemistry at the, 560
Cameron, Dr. J. C., on the employment of quinine in fevers and other diseases, 458
Campbell, Lord, post-mortem examination of the late, 193
Can such things be? 342
Canada, medical officers for, 582
Canadian expedition, the medical staff of the, 607
Cancer, scirrhous, of the male breast, 110, 111; of the male breast, 167; colloid, of the peritoneum, 230; of the lungs, in a case in which a malignant tumour of the scapula was removed, 252; of the lower lip at the central part of its inner surface, excision, 350; of the liver, 377; medullary, of the breast, 407, 498; of the tongue, an account of a case in which the entire organ was successfully removed for, 594
Cantharides question, the, 583
Canton, Mr. E., introductory address by, at Charing-cross Hospital, 315; malignant fungus of both eyeballs, in a child, 357
Caplin, Dr. J. F. J., Historical Records of the various Affections Cured by means of the Electro-Chemical Bath (review), 232
Carter, Dr. H. V., a New and Striking Form of Fungous Disease (review), 116
———, Dr. T. A., the treatment of anasarca, 410
———, Dr. W. G., on diabetes, 157; paralysis after diphtheria, 262
Cataract, operations for, 363; lenticular, M. Sperino's treatment of, 582
Causes of death, 173
Cavasse, Dr., L'Année Médicale; Annuaire Général des Sciences Médicales (review), 693
Cavour's successor in the House of Representatives, 242
Census of Scotland, 1861, 154
Cerebellum, diagnosis of hæmorrhage in the, 391, 415; cyst in the, producing symptoms of disease of the brain, 423; on the symptoms and diagnosis of wounds, softening, and abscess of the, 515, 611
Certificates, medical, 384
Cervix uteri, fibroid tumour of the, 34
Chamberlens, on the discovery of the original obstetric instruments of the, 498
Chambers, Dr. T. K., lecture on gonorrhœa and imaginary spermatorrhœa, 22, 48; drill for auscultation, 369
Chancery lunatics, 119
Chapman, Dr. W. E., eczema aurium, 176
Charing-cross Hospital, distribution of prizes, 125; introductory address by Mr. Canton at, 315
Charity and gain, 78
Cheesman, Dr. G., on a case of extra-uterine gestation continuing without suspicion of pregnancy to the full term, 250
———, Dr. J., professional evidence in courts of law, 96
Chelsea, medical appointments in, 363; the alarming death-rate at, 560; improvement in the health of, 607
Chemical Society, 536, 582
Chemistry, a Manual of, Descriptive and Theoretical (review), 381
Chemists and druggists, the rights of, 556
Chicory and coffee, on the adulteration of, 18
Child-labour, 213; and physical training, 234
Chippendale, Mr. J., yellow fever, 266
Chloroform, death of a physician from inhaling, 6; on the modes of death from, 179; death from, 264; or ether? 573
Cholera, on the pathology of, with an exposition of the causes that necessarily render all medicine inoperative in that disease, 162; treatment of, 195, 215; in Meerut, 264; in India, 310, 356, 363, 412, 461; prophylaxis and arrest of, 436; on the early treatment of, 579; in India, on the treatment of, 605
Chores, on the physiological and medicinal properties of sulphate of aniline, and its use in the treatment of, 409
Christmas cattle, fatty disease amongst, 575
Chromidrosis, 74; again, 304
City pumps, 119, 430
Cleveland, Mr. G., the greater frequency of pneumonia of the right lung over that of the left, 266
Climates for Invalids (review), 253
Clonmel, lunatic asylum for, 511
Clothing, non-inflammable, 465
C.M., the new degree of, 90
Cockle, Dr., spontaneous bursting of ovarian cysts, 491
College hospitals and university colleges, 198
——— of Dentists, the, 68, 142, 194
Colney Hatch Asylum, 461
Colon, stricture of the, 374; loaded, in connexion with prolapsus ani 562
Compensation for injuries, 168, 221
Complicated case, a, 128
Compulsory vaccination, 482, 504, 528, 600
Concealed hæmorrhage, 169
Conservative surgery, 216, 239, 262, 296, 458; a rare instance of, 195
Constipation, from supposed obstruction of the bowel, 253; obstinate, with vomiting, treated successfully by kneading the belly, 569
Convalescents, hospital for, 299
Cooke's method of ventilation, 25
Coote, Mr. H., on vascular tumours, 613
Corbet, Dr. E., the degeneration of race, 170, 360
Cornea, on a case of penetrating ulcer of the, producing a fistulous opening into the anterior chamber, and partial collapse of the globe, cured by iridectomy, 328
Coroner for Somersetshire, election of, 16
Coronership of Middlesex, the, 363
Corpus callosum and fornix, imperfect formation of the, with absence of the septum lucidum and commissura mollis, 11
Cory, Dr. F. C., conservative surgery, 216
Costello's Cyclopædia of Surgery, 363
Cottage System and Gheel (review), 115
Coulson, Mr. W., on a case of secondary abscess with disorganization of the knee-joint, following scarlatina and parturition, 375
Cregeen, Dr. J. J., conservative surgery, 296; on the removal of needles from the abdomen, 580
Cricoid cartilage, necrosis of the, with dyspnœa, fatal result, 548
Crime, a, not contemplated by the law, 192
Crisp, Dr. E., the conservatorship of the Hunterian Museum, 558
Croft, Dr. J. M'G., dugong oil, 508
Crooke, Dr. E., dislocation of the astragalus outwards, 593
Cullen, Dr. E., leprosy in British Guiana, 195
Cusack, Mr., death of, 340
Cynophobia, 17
Cystitis, acute, and dysuria in a child, with caries of the vertebræ, and a psoas abscess, 448

D

Dairy Stock, its Selection, Diseases, and Produce (review), 254
Dalrymple, Dr. D., Meteorological and Medical Observations on the Climate of Egypt, with Practical Hints for Invalid Travellers (review), 116
Dalton, Dr. J. C., a Treatise on Human Physiology: designed for the Use of Students and Practitioners of Medicine (review), 162
Danube, typhus and malignant anthrax on the banks of the, 461
Date, Mr. W., a case of doubtful pregnancy, 580
Davidson, Dr. F. M., foreign body in the rectum, 410
Davies, Dr. T. C., on the chemical properties of the snake-stone, 621
———, Mr. J. R., on the radical cure of varicocele, 60
Davis, Mr. W. G., fees to medical witnesses, 465, 562
Davy, Sir Humphry, monument to, 577
Dawson, Dr. R., Dr. Chambers' lecture on gonorrhœa and imaginary spermatorrhœa, 22
———, Mr. W., obituary of, 463
Deaf and Dumb in France, statistics respecting the, 101
Death, Mr. R., inversion of the uterus, 410
Degeneration of race, the, 170, 232, 360
Delirium tremens, fatal result from, in a case of compound comminuted fracture of the leg, in which amputation of the thigh was performed, 615
Delusions, peculiar, 102
Dentists, military, 221
Diabetes, on, 157
Diarrhœa and dysentery, the autumnal forms of, on the employment of nitric acid and opium for the treatment of, 204, 254
Diary, medical, of the week, 27, 52, 77, 109, 127, 151, 175, 197, 220, 243, 265, 311, 341, 365, 389, 413, 438, 464, 489, 513, 537, 561, 584, 609, 624
Dictionary of Political Economy (review), 163
Dieffenbach's pears, 431
Digitaline, on, 174
Diphtheria, paralysis after, 174, 262; notes on, as observed at Brighton, 542, 589
Dipsomaniac acquitted, a, 357
Diseased and disabled, 235
Dissections of the Human Body, a Manual of the (review), 478
Domestic Animals, General and Descriptive Anatomy of the (review) 479
Down, Dr. G., proof of registration, 158
———, Dr. J. L., on a case in which the corpus callosum and fornix were imperfectly formed, and the septum lucidum and commissura mollis were absent, 11
Drainage, defective, and fever, 503
Drinking fountains, 485
Druggists, carelessness of, 408
Drunken madness, 214
Dublin Lying-in Hospital, 560

A MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

CHARING-CROSS HOSPITAL.—Anæmia lymphatica; enlargement of the lymphatic glands, liver, and spleen; general dropsy; fatal result; autopsy, 8—Acute rheumatism resulting in disorganization of the left wrist-joint, 135—Large malignant tumour of the scapula; removal, with the greater part of the bone; fatal result from cancer of the lungs, 252—Muscular tumour springing from the sterno-mastoid muscle; recovery, 349—Three cases illustrating the results of a new operation for the radical cure of umbilical hernia, 419—Thirty-eight exostoses growing from the extremities of a girl, 446—Tumour in the epigastric region, supposed to be of syphilitic nature, 615
GREAT NORTHERN HOSPITAL.—Four successful cases of excision of the knee-joint, 331—Depressed fracture of the skull; convulsions; removal of bone; fatal result, 374—Fracture of the base of the skull, with a discharge of watery fluid from the ear; recovery, 399—Nævus in the centre of the forehead of an infant; treatment by excision; cure, 568
GUY'S HOSPITAL.—Anæmia lymphatica, with enlargement of the liver and spleen, 9—Leucocythemia splenica; fatal result, ib.—Hemiplegia following shocks of electricity; complete recovery, 86—Very large cysto-sarcomatous tumour of the breast; successful removal, 111—Medullary cancer of the testicle of remarkably rapid growth; amputation; recovery from the operation, 134—Cyst in the antrum; puncture on two occasions; cure, 207—Adhesion between the septum nasi and lower turbinated bone, ib.—Retention of urine from adherent prepuce in a child, ib.—Oxidation of a silver canula persistently worn for six months after tracheotomy, 253—Induction of premature labour; transverse presentation; cephalic version by Dr. Hicks's method; forceps; child alive; recovery, 331—Induction of premature labour; shoulder presentation; podalic version by Dr. Hicks's method; recovery, ib.—Necrosis of the cricoid cartilage, with dyspnœa; tracheotomy; fatal result, 344—Compound fracture of the skull, associated with epileptiform convulsions; trephining; fatal result, 401—Painful ulcer of the rectum, 447—Salivation without the administration of mercury, ib.—Simple ulceration of the tongue caused by a sharp tooth, ib.—Peculiarly furred condition of the tongue in a case of disease of the bladder, ib.—Medullary cancer of the right breast, forming a large tumour; successful excision, 497—Polycystic ovarian tumour, previously treated by tapping and injection of iodine; ovariotomy; death in twenty-seven hours, 520—Condition of the stump after Pirogoff's operation, 547—Enlargement of the liver consequent upon former attacks of dysentery, ib.
KING'S COLLEGE HOSPITAL.—Disarticulation of the shoulder-joint for a medullary tumour of the upper end of the humerus; recovery, 32—Scirrhous cancer of the male breast; excision, 111—Induction of premature labour; successful result, 158—Fibrous tumour of the antrum extending through the hard palate into the mouth; successful removal, 206—Elephantiasis of the scrotum, the size of an adult's head, and weighing six pounds; successful removal, 294—Large recurrent fibroid tumour, situated above the left breast; successful removal, 496
LONDON HOSPITAL.—Degenerated nævus on the finger; removal, 10—Enlargement of the glands in the axilla; partial diminution by the use of iodine, 160—Detachment of the epiphysis of the radius in both arms, 184—Abscess of the neck, involving the tonsil; recovery, 349—Cases of indurated chancre of the lip, 474—Cystic tumour of the right breast in a male; successful removal, 498—Unilocular ovarian tumour, at one time associated with pregnancy; ovariotomy; death from peritonitis on the third day, 519—Polycystic tumour; ovariotomy; recovery, 520—Obstinate constipation, with vomiting; recovery after kneading the belly, 569—Hæmorrhage from the axilla; ligature of the axillary artery; death; autopsy, 594
LONDON SURGICAL HOME.—Seven examples of ovarian tumour, in six of which ovariotomy was successful, 521
METROPOLITAN FREE HOSPITAL AND CITY DISPENSARY.—Paraplegia occurring in young children, induced by exposure to wet and cold, 159—Injections of liquor hydrargyri perniitratis in the treatment of gonorrhœa, 350—Unilocular ovarian tumour in a woman who had borne six children; ovariotomy; recovery, 521—Unilocular ovarian tumour; ovariotomy; fatal result on the nine teenth day, 522—Multilocular ovarian tumour; ovariotomy; recovery, ib.
MIDDLESEX HOSPITAL.—Scirrhous cancer of the male breast; excision; recovery, 110—True hydatid cysts developed in the left breast of a woman who, when a child, was subject to tape-worm; removal, 497
QUEEN ADELAIDE'S DISPENSARY.—Colloid cancer of the peritoneum; fatal result; autopsy, 230
ROYAL FREE HOSPITAL.—Part of a needle encysted in the areolar tissue over the knee-joint twelve years, discharged after a recent injury, 10—Hemiplegia following shocks of electricity; persistence of the paralysis, 87—Wound of the palmar arches; recurrent hæmorrhage; ligature of radial and ulnar arteries; cure, 160—Large encysted urinary calculus in a primipara, probably inducing premature labour; craniotomy; death by metro-peritonitis, 229—Sequel to a case of hemiplegia following shocks of electricity; complete recovery, 253—Compound fracture of the tibia and fibula; amputation of the thigh; fatal result, 349—Cases of supernumerary thumb, imperforate vagina, and imperfect development of the ear in children, 431—Necrosis of the entire shaft of the femur; amputation below the trochanters; recovery, 448—Scarlatina complicated with acute rheumatism, bronchitis and pericarditis supervening; recovery, 473—Scirrhous tumour of the female breast of six months' duration; successful removal, 498—Compound comminuted fracture of the leg below the knee; wound of anterior tibial artery; amputation of thigh; fatal result from delirium tremens, 615
ROYAL WESTMINSTER OPHTHALMIC HOSPITAL.—New operation for entropium: division of the tensor tarsi muscle for inverted eye-lashes, 569
ST. BARTHOLOMEW'S HOSPITAL.—Leucocythemia splenica, following ague; recovery, 10—Disarticulation of the shoulder-joint for a severe injury inflicted by machinery; recovery, 61—Scirrhous cancer of the male breast; refusal to submit to an operation, 111—Slowness of the pulse, without any well-marked disease to account for it, 158—Enlargement of a mass of lymphatic glands in the axilla; successful removal, 159—Congenital cystic tumour in the lower jaw of an infant; removal, 207—Kick in the epigastrium producing pleurisy with effusion and displacement of the heart, 208—Constipation from supposed obstruction of the bowel; importance of examination per anum, 253—Transitory cerebral symptoms in acute rheumatism, 331—Protrusion of the eyeball from suppurative inflammation of the orbital areolar tissue; recovery, 349—Great hypertrophy of the right tonsil blocking up the pharynx; removal by the écraseur without any hæmorrhage, 372—Fracture through the base of the skull; absence of any well-marked symptoms; fatal result, 399—Sebaceous tumour situated upon the left auricle; successful removal, 422—Examples of vicarious hæmatemesis, 447—Enormous dropsical distension of the right kidney, following occlusion of the ureter by a calculus, 472—Intense congestion of the liver, simulating an abdominal tumour; icterus; recovery, 547—Exostosis on the outer side of the lower part of the femur; successful removal, ib.—Excision of the knee-joint for intractable disease, 569—Erysipelas of the face, with an impetiginous eruption and cynanche, cured by iron, 615
ST. GEORGE'S HOSPITAL.—Encephaloid disease of the œsophagus ulcerating into the subclavian artery; death from syncope, 61—Hemiplegia suddenly induced by spontaneous coagulation of the blood in the anterior cerebral arteries; fatal result, 87—Aneurism of the temporal artery; cure by compression, 135—Tumour near the meatus urinarius of a female; removal, 183—The écraseur employed to remove the male organ affected with carcinoma, 208—Tuberculous abscess bursting into the trachea of a child; fatal result; autopsy, 348—Compound fracture of the skull below the occipital protuberance; escape of cerebro-spinal fluid; recovery, 398—Symptoms of disease of the brain, the result of a cyst found in the cerebellum, 422—Acute cystitis and dysuria in a child, with caries of the vertebræ and a psoas abscess; fatal result, 448—Obstruction of the hepatic ducts by hydatids unsuspected during life, producing jaundice; purpura; fatal result, 473—Medullary cancer of the right breast, within which was developed a large cyst; excision; recovery, 498—Stone in the neck of the bladder, projecting into the urethra; death from scarlatina, 567
ST. MARY'S HOSPITAL.—Varicose veins and ulcer cured by the use of blisters, after failure by needles, 61—Syphilitic abscess ending in fistula in ano, 135—The treatment of flat ulcers of the rectum, 160—Severe injury from a fall down a chimney shaft fifty feet high; death six weeks after; pus found in the gall-bladder, 184—Extensive rupture of the liver from a kick by a horse; death in half an hour, 208—Saccular expansion of the internal saphena vein, with a narrow pedicular attachment; removal, 238—remarkable case of mollities ossium in a woman aged forty, the mother of ten children; fatal result; state of the bones after death, 330—strangulated femoral hernia; operation without opening the sac; second exploratory operation; recovery, 421—Strangulated femoral hernia; operation; recovery, ib.—Simple complete dislocation of the astragalus forwards and outwards; reduction; recovery, 546—Extensive caries of the astragalus and os calcis in a child; Syme's amputation; recovery, ib.—Stone in the bladder crushed on three occasions; cure within three weeks, 567
UNIVERSITY COLLEGE HOSPITAL.—Rudimentary fingers, with bulbous terminations; abnormal toes, 11—Disarticulation of the shoulder-joint for extensive injuries to the entire arm produced by machinery; fatal result, 33—Hæmatoma situated over the symphysis pubis, attributed to pressure, 62—Keloid occurring in the cicatrix of a burn; extirpation; recovery, 134—Treatment of three cases of so-called impermeable stricture, 183—Fracture of the ribs and both clavicles from a squeeze; recovery by rest alone, 229—Concussion of the brain, with paralysis of the left arm; recovery, with impaired intellect, 372—Cases of external and internal piles, stricture of the rectum, congenital deficiency of the anus, and prolapsus of the bowel, 430—Fracture of the skull of a hydrocephalic infant; hemiplegia; fatal result, 447—Extensive wound of the larynx and neck, followed by an aërial fistula; closure of the last, 547—Diffused femoral aneurism; deligation of the external iliac; death from pelvic abscess, 593
WESTERN GENERAL DISPENSARY.—Remarkable case of mollities ossium in a woman aged forty, the mother of ten children; fatal result; state of the bones after death, 330
WESTMINSTER HOSPITAL.—Dislocation of the patella upwards, 11—Disarticulation of the shoulder-joint for a recurrent fibroid tumour of the arm; recovery, 32—Strangulated hernia; stricture of the urethra; hæmorrhoids; previous constipation for 21 days; operation for hernia; operation for stricture; recovery, 183—Tumour beneath the lower jaw; successful removal, 207—Strangulated congenital hernia in an infant; herniotomy; recovery, 295—Necrosis of the astragalus; successful removal, ib.—Removal of a large portion of tibia, and portions of astragalus, for necrosis, ib.—Compound fracture of the skull, with protrusion of the substance of the brain; recovery, 373—Extensive laceration of the brain-substance, with extravasation of blood, ib.—Compound fracture of the skull; trephining; removal of sixteen spiculæ of bone; death, 400—Nose bitten off, and sewn on again; teeth knocked out, and reintroduced; adjustment of a piece of detached scalp, 422
Mitchell, Mr. J. T., bleeding versus brandy, 617
Mollities ossium, in a woman aged forty, remarkable case of, 330
Monckton, Mr. M., the Medical Assistants' Benevolent Association, 103
Moore, Dr. E. D., Memorandums and Recollections of Gout and Rheumatism, and their Treatment, with a few Practical Remarks on Sciatica and Lumbago (review), 232
———, Dr. W. J., a Manual of the Diseases of India (review), 479
———, Mr. C. H., observations on the division of the gustatory nerve, and on the ligature of the lingual artery, in the treatment of cancer of the tongue, 549
Moorfields, a complication at, 619
Moorhead, Dr. C., hill sanitaria, 459
Moquin-Tandon, Mons. A., Elements of Medical Zoology (review), 116
Morris, Dr. T., on a case of leucocythemia splenica, 591

OBITUARY.—Commander R. Bowden, R.N., M.R.C.S., 230—G. M. Jones, Esq., M.R.C.S., 264—S. R. Pittard, Esq., M.R.C.S., 437—James Richard Hancorn, M.D., ib.—George Hickman, Esq., M.R.C.S., ib.—Christopher Henry Hebb, Esq., M.R.C.S., 462—William Dawson, Esq., Inspector-General of Hospitals, 463—Sir John Forbes, M.D., D.C.L., Oxon., F.R.S., 512 — Augustin Sayer, M.D., F.R.C.P., ib.—Thomas Southwood Smith, M.D., F.R.C.P., 608—Thos. H. Stewart, Esq., M.R.C.S., 623—Frederick H. Johnson, M.D., ib.
Obstetric surgery, contributions to the science of, 566, 592, 614
Obstetrical Society, Transactions of the (review), 116
O'Connor, Dr. W., foreign body in the rectum, 433
Odling, Dr. W., introductory address by, at Guy's Hospital, 317; a Manual of Chemistry, Descriptive and Theoretical (review), 381
Œdema of the larynx, 168
Œsophagus, encephaloid disease of the, ulcerating into the subclavian artery, 61
O'Neille, Dr. W., kameyla in worms, 585
Operative Surgery, adapted to the Living and Dead Subject (review), 35
Ophthalmia, on Acute, as it occurred in the Left Wing of her Majesty's 37th Regiment during 1851-52, whilst stationed at Colombo, Ceylon (review), 90; granular, 340
Opium and stimulants, recovery of cases of acute rheumatism with pericarditis by the administration of, 230
Ormerod, Dr. E. L., notes on diphtheria as observed at Brighton, 543, 580
Our black sheep, 39
Ovarian cyst, fatal result of the injection of iodine into an, 59; removed by operation, 376
——— cysts, spontaneous bursting of, 401
——— tumours, unilocular and polycystic, a series of thirteen cases, in which ovariotomy was performed, followed by recovery in nine, 519
Ovariotomy, cases of, 34, 172; narration of five cases of, 476
Owen, Professor, the late Professor Quekett and the Council of the College of Surgeons, 358; the late Mr. Pittard, 410, 433
Oxalate of cerium in the sickness of pregnancy, 538
Oxford University, regulations of, 271; pass-list of, 582
Oxidation of a silver canula persistently worn for six months after tracheotomy, 253

P

Pain and the therapeutic influence of rest, on, 3, 58, 80, 129, 155, 201, 223, 245, 291, 343, 367, 393, 441, 467, 491, 539, 563, 587
Palmar arches, wound of the, recurrent hæmorrhage, ligature of radial and ulnar arteries, 160
Paralysis, after diphtheria, 262; from diseased bone, 402; of the same side as the clot, in a case of effusion of blood into the arachnoid cavity, 523
Paralytic, convulsive, and mental affections, on the diagnosis and treatment of the various forms of, 1, 29, 55, 79, 153, 199, 391, 415, 515
Paraplegia occurring in young children, induced by exposure to wet and cold, 159
Parasitic fungi, identity of, 507, 538, 562
Paris, the supply of water in, 200; introductory lecture in, 340; sanitary state of, 484

Parsee army surgeons, 17
Parturition, abnormal, on the influence of, &c., on the mental and physical condition of the child, especially in relation to deformities, 379
Patella, dislocation of the, upwards, 11
Pathological Society, Transactions of the (review), 571
Pauper schools, disease at, 557
Pelvic cellulitis, case of, 378
Penis, amputation of, for disease, 377
Pennington, Mr. T., a case in obstetrics, 433
Pepper and Cayenne, on the adulteration of, 236
Pepsine in indigestion of new-born children, 512
Pericardium, extensive effusion into the, 605
Perils of the medical profession, 75
Perineum, on Supporting the (review), 163; lacerated, 592; the operation for complete laceration of the, 614
Peritoneum, colloid cancer of the, 230
Peritonitis, on a case of, caused by escape of pus from the Fallopian tube into the abdominal cavity, following on abortion artificially induced, 571
Perroud, Dr. L., de la Tuberculose, Nature et Prophylaxie (review), 163
Pharmaceutical chemist, the title of, 242
——— Society, pass-lists of, 74, 563, 412, 511, 606
Pharmacien, a statue to a, 310
Pharmacopœia, the New British, 453; committee, a hint to the, 610
Pharmacy, the French laws regarding, 363
Phillips, Messrs., the Analytical Sanitary Commission, 241
Photography in medicine, 310
Phthisis and hemiplegia, 364
Physical exertion, dangers of excess in, 165
Physician, the true, 340
Physicians and surgeons, 340
———, scientific rewards to, 531
Physicians' penmanship, 505
Physics, Elementary Treatise on (review), 480
Pickles, bottled fruits and vegetables, on the adulteration of, 532
Piedagnel, M., death of, 295
Piles, external and internal, case of, 420
Pirogoff's operation, condition of the stump after, 547
Pittard, Mr., the death of, 407, 437; the late, 410, 432, 484; fund, the, 510, 536
Placenta prævia, the practice in, 167
Plagiarism, 243
Pneumonia, on the uncertainty of the sputum as a diagnostic feature in, 224; the greater frequency of, of the right lung over that of the left, 206
Podophyllin, 514
Poisoning, accidental, 16; accidental, how to prevent, 53; no crime, 141, 335; by strychnia, 169; by aconite, 170; accidental, another case of, 388; by prussic acid, on a case of, 419; slow or chronic, experiments on, 490
Political medicine, 236
Pollard, Mr. E. W., the physiology of the hot bath, 454
Polypi, of the rectum, 174; of the uterus, instrument for the removal of, 570
Polytechnic Institution, 210
Poor-law medical officers, remuneration of, 610
——— Medical Reform Association, 22, 49, 98, 119, 332, 359, 507, 603
Popliteal aneurism, post-mortem examination of a partially consolidated, 102
Popular medical instruction, 77
Population of the globe, 511
Postmen, health of the, 577
Powell, Dr. J. T., poisoning by strychnia, 169
Pratt, Mr. F., remuneration of poor-law medical officers, 610
Pregnancies, eighteen, case of a patient who in, gave birth to only seven living children, the eleven others having been expelled dead at various periods of gestation, 570
Pregnancy, sickness of, oxalate of cerium in the treatment of, 538; a case of doubtful, 580
Premature labour, induction of, 158

Premiums for infanticide, 299
Prepuce, adherent, in a child, retention of urine from, 207
Presentation, unusual, 605
Presidents of the Royal Colleges of Physicians and Surgeons, the, 623
Price, Mr. P. C., on Scrofulous Diseases of the External Lymphatic Glands (review), 36; illness of, 388
Prince Consort, death of the, 599; the illness of the, 621
Professional etiquette, 221, 266, 312; and Dr. Edmunds, 342, 366
—— evidence in courts of law, 95, 128
—— incomes, 236
Prolapsus ani, case of loaded colon in connexion with, 514
Prospects of the medical session, 335
Prostate, the Diseases of the, their Pathology and Treatment (review), 450
Provinces, fever in the, 333
PROVINCIAL HOSPITAL REPORTS. — Liverpool Northern Hospital: Acute rheumatism, with pericarditis; treatment by opium and stimulants; recovery, 230—Manchester Hospital for Sick Children: Accidental ichthyosis; necrosis of the ilium and sacrum; tumour of the leg of an infant; and other cases, 350—Manchester Royal Infirmary: Cancer of the lower lip, at the central part of its inner surface; excisi n, ib.
Prowse, Mr. J. B., loa ed colon in connexion with prolapsus ani, 562
Puerperal convulsions, on, 135
—— fever, on, 500
Pulse, slowness of the, without any well-marked disease to account for it, 158

Q

Quack, shocking proceedings of a, 243
Quackery, petition against, in France, 122
Quail v. Hall, 510
Queen's College, Cork, 488
—— University in Ireland, regulations of, 305
Quekett, Profes or, death of, 197; the family of the late, 356; and the Council of the College of Surgeons, 358; the late, 436, 561; sale of the effects of, 607
Quinine, on the employment of, in fevers and other diseases, 456

R

Race, the degeneration of, 170, 232, 360
Radford, Dr. T., the practice in placenta prævia, 167
Radial and ulnar arteries, ligature of the, in a wound of the palmar arches, 160
Radius, fracture of the lower end of the, with the styloid process of the ulnar torn of, 523
Railway accidents, the late, 235
—— compensation case: the Governors of St. Thomas's Hospital against the Charing-cross Railway Company, 459
—— injuries, a medico-legal subject, 255
—— train, death in a, 511

Ray, Mr. E., homœopathic consultations, 94, 167
Recti femoris, report of a case of rupture of the tendons of both, 226
Rectum, remarks on some diseases of the, 112; treatment of flat ulcers of the, 160; polypi of the, 174; a foreign body in the, 410, 433; stricture of the, 420; painful ulcer of the, 447
Register, the Medical, 343; wanted, 454; and medical fees, 531
Registration, proof of, 128; of births, 150; of deaths, 192
Remedy, a new, 534
Renal dropsy succeeding scarlatina, and on the efficacy of benzoate of ammonia in albuminuria, 361
—— sac, enormous, emptied by tapping during life, 449
Reumont, Dr. A., the Mineral Springs of Aix-la-Chapelle and of Borcette (review), 232

REVIEWS AND NOTICES OF BOOKS.

On Food and its Digestion; being an Introduction to Dietetics: by William Brinton, M.D., 12—Operative Surgery adapted to the Living and Dead Subject: by C. F. Maunder, F.R.C.S., 35—Ready Rules for Operations in Surgery; second edition: by Allen Webb, M.D., 36—A Manual of Minor Surgery and Bandaging: by Christopher Heath, F.R.C.S., ib. — On Scrofulous Diseases of the External Lymphatic Glands: by P. C. Price, F.R.C.S.E., ib. — The Modern Pathology and Treatment of Venereal Diseases: by P. H. Watson, M.D., ib. — On the Importance of the Functions of the Skin in the Pathology and Treatment of Tubercular Consumption: by A. Toulmin, M.D., ib. — A Manual o the Practice of Medicine; fourth edition: by Thos. H. Tanner, M.D., ib.—The Autobiography and Services of Sir James M'Grigor, Bart., late Director-General of the Army Medical Department, 64 — The Roll of the Royal College of Physicians of London; Vol. I.: by Wm. Munk, M.D., 89 — On Acute Ophthalmia, as it occurred in the Left Wing of Her Majesty's 37th Regiment during 1851-52, whilst stationed at Colombo: by J. C. Fleming, F.R.C.S.E., 90—Tabular View of the Primary Divisions of the Animal Kingdom: by Robt. E. Grant, M.D. Edin., 115 — The Cottage System and Gheel: by John Sibbald, M.D., ib. — Meteorological and Medical Observations on the Climate of Egypt: by D. Dalrymple, M.D., 116 — Elements of Medical Zoology: by A. Moquin-Tandon; translated and edited by R. T. Hulme, M.R.C.S., ib.—A New and Striking Form of Fungous Disease: by H. V. Carter, M.D. Lond., ib. — Heads of Lectures on the Practice of Medicine. Part I. "General Diseases:" by Andrew Anderson, M.D., ib. — Thesis on Tubercular Leprosy, or the Elephantiasis Græcorum: by Alex. Abercrombie, M.D., ib. — Transactions of the Obstetrical Society of London, Vol. II., ib.—The Encyclopædia Britannica; eighth edition, 137 — A Treatise on Human Physiology; second edition: by J. C. Dalton, Jun., M.D., 162 — On "Supporting the Perinæum:" by Graily Hewitt, M.D., 163—De la Tuberculose, Nature et Prophylaxie: par le Docteur L. Perroud, ib. — A Dictionary of Political Economy; Parts I. and II.: by H. D. Macleod, Esq., ib.—A Practical Treatise on Mechanical Dentistry: by Jos. Richardson, D.D.S., M.D., Ohio, 187 — Ten Lectures Introductory to the Study of Fever: by Andrew Anderson, M.D., ib. — The Climate of England; its Meteorological Character explained, and the Changes of future years revealed: by Geo. Sheppard, C.E., 188 — On the Reparative Process in Human Tendons after Subcutaneous Division for the Cure of Deformities: by William Adams, F.R.C.S., 210 — On Diseases peculiar to Women, including Displacements of the Uterus: by Hugh L. Hodge, M.D., Pennsylvania, 211—Archives of Medicine, No VIII., ib.—Lectures on the Diseases of the Kidneys generally known as "Bright's Disease" and Dropsy: by S. J. Goodfellow, M.D. Lond., 231—The Mineral Springs of Aix-la-Chapelle and of Borcette: by Alex. Reumont, M.D., 232—Household Medicine: by John Gardner, M.D., ib. — Historical Records of the various Affections Cured by means of the Electro-Chemical Bath: by Mons. J. F. J. Caplin, M.D., New York, ib.—Memorandums and Recollections of Gout and Rheumatism, and their Treatment: by Edward Duke Moore, L.R.C.P.E., ib.—British Wild Flowers; Parts I. to V.: by J. E. Sowerby, ib.—Climates for Invalids; or a Comparative Inquiry as to the Preventive and Curative Influence of the Climate of Pau, and of Montpellier, Hyères, Nice, Rome, Pisa, Florence, Naples, Biarritz, &c., on Health and Disease; third edition: by Alex. Taylor, M.D., 233 — Electro-Physiology and Electro-Therapeutics: by A. C. Garratt, M.D., Massachusetts, 254 — Dairy Stock: its Selection, Diseases, and Produce; with a Description of the Brittany Breed: by John Gamgee, ib. — The Technologist. A Monthly Record of Science applied to Art and Manufacture: edited by P. L. Simmonds, F.S.S., ib.—Mentone and the Riviera as a Winter Climate: by J. Henry Bennet, M.D., 296 — A Practical Treatise on Military Surgery: by F. H. Hamilton, M.D., New York, 332 — The Human Foot and the Human Hand: by G. H. Humphry, M.D., 351 — On the Sounds caused by the Circulation of the Blood: by Arthur Leared, M.D., ib. — Eastbourne, and the Advantages which it possesses as a Resort for Invalids: by Wm. A. Smith, M.D.; and Chas. C. Hayman, M.D., 352—Des Mesures d'Hygiène Publique qui doivent être conseillées à l'Autorité pour Empêcher la Propagation du Virus Syphilitique: par M. Rodet, ib.—A System of Surgery, Theoretical and Practical, in Treatises by various Authors. In Four Vols. Vol. II.: Local Injuries; Diseases of the Eye: edited by T. Holmes, M.A. Cantab., 380, 424 — A Manual of Chemistry, Descriptive and Theoretical; Part I.: by Wm. Odling, M.B., 381—Guy's Hospital Reports; Third Series, Vol. VII.: edited by Samuel Wilks, M.D., and Alfred Poland, 402—The Method of Drill and the Manner of Teaching Speaking used at Essex hall, Colchester, for Idiots, &c.: by P. M. Duncan, M.B. Lond., 403 — Health and Disease as influenced by the Daily, Seasonal, and other Cyclical Changes in the Human System: by Edw. Smith, M.D., 426 — On the Parasitic Affections of the Skin: by T. M'Call Anderson, M.D., 449—A Guide to the Treatment of Diseases of the Skin, with Suggestions for their Prevention; fifth edition: by Thos. Hunt, F.R.C.S., ib.—The Diseases of the Prostate; their Pathology and Treatment: by H. Thompson, F.R.C.S., 450—A Manual of the Dissection of the Human Body; second edition: by Luther Holden, F.R.C.S., 478 — A Manual of the Practice of Medicine; second edition: by G. H. Barlow, M.D., 479—A Manual of the Diseases of India: by W. J. Moore, L.R.C.P. Edin., ib.—The West India Quarterly Magazine, ib.—General and Descriptive Anatomy of the Domestic Animals: by John Gamgee and James Law, ib.—Elementary Treatise on Physics, Experimental and Applied: by Prof. A. Ganot; translated and edited by E. Atkinson, Ph.D., 480—Adulterations Detected; or, Plain Instructions for the Discovery of Frauds in Food and Medicine; second edition: by A. H. Hassall, M.D., 501 — The Transactions of the Ethnological Society of London, Vol. I., New Series, 502—Elements of Experimental and Natural Philosophy; second edition: by Jabez Hogg, M.R.C.S., ib. — The Alps, or Sketches of Life and Nature in the Mountains: by H. Berlepsch: translated by the Rev. Leslie Stephen, M.A., ib. — Forest Creatures: by Chas. Bentr, ib. Letts's Diary and Medical Diary, ib.—Army Medical Department: Statistical Sanitary and Medical Reports for the Year 1859, 525 — Recherches Cliniques et Expérimentales sur la Syphilis, le Chancre Simple, et la Blennorrhagie: par J. Rollet, 551 — Transactions of the Pathological Society of London, Vol. XII., 571 — A Survey of Human Progress, from the Savage State to the Highest Civilization yet attained: by Neil Arnott, M.D., ib.—Spinal Debility, its Prevention, Pathology, and Cure, in relation to Curvatures, Paralysis, Epilepsy, and various Deformities: by Edward W.
